INNOVATION

NEW! COOPER MCGRAW-EDISON GALLEON II FLOODLIGHT

The [Galleon II Floodlight](#) delivers high-performance optical control in a scalable platform, utilizing eight NEMA type flood optics and a host of mounting options to solve even the most difficult design challenges. Pristine color rendering and color-over-angle performance set the standard for lighting quality, providing stunning results on every project.

NEW! ATLANTIC ALTURA CYLINDERS

With a sturdy handspun aluminum housing, this cylinder family boasts a durable textured powder coat finish. Select cylinders offer several beam angle options for creating the optimal lighting design. Pendant fixtures feature a slim $\frac{1}{2}$ " mounting stem with a swivel canopy that self-adjusts up to 45°. An optional fixed position flat canopy presents minimal visual distraction with its sleek $\frac{1}{4}$ " profile. Secured magnetically, it eliminates visible fasteners. A field-cut kit (also optional) makes custom lengths and adjustments simple during installation.

Altura cylinders are available in 2", 3", 4", 5", and 6" diameters with surface, pendant, and wall mounting options.
